Education

2010-2020

SCHOOL

Lilavati Bai Podar High School

Podar School ICSE is a renowned educational institution that follows the ICSE curriculum in India. With a rich history spanning several decades, Podar School ICSE has established itself as a leading provider of quality education. The school focuses on delivering a well-rounded educational experience, combining academic excellence with a holistic approach to development.

2020-PRESENT

DEGREE/DIPLOMA

Mukesh Patel School of Technology Management and Engineering

MPSTME is known for its quality education, experienced faculty, and emphasis on practical learning. The institution strives to provide a conducive environment for students to develop their technical skills, entrepreneurial mindset, and leadership qualities. MPSTME offers various specializations in engineering and technology disciplines, including Computer Science, Information Technology, Electronics & Telecommunication, Mechanical Engineering, and more.

Work Experience

MAY 2023-JULY 2023

INTERN

One Alpha Project LLP

I had the incredible opportunity to work under the guidance of Tarun Singh and Jatin Singh, two experienced professionals in the field. The company I interned at specialized in trading ghost patterns, an intriguing area of expertise. Throughout my time there, I was exposed to a wide range of valuable skills and knowledge. Tarun and Jatin took the time to mentor me in various aspects of the industry, including designing graphical user interfaces (GUIs) and developing webpages and applications.
